Mr Graham Keeping
Perle Pty Ltd
Unit 8, 34 park Road
Naremburn NSW 2065

To Whom it May Concern

Woods Bagot are Architects and Interior Designers specialising in corporate interiors. Recently we had the pleasure of working with Mr Graham Keeping on the Philips Electronics project at North Ryde.

The project was a 5000sqm workspace including workstations, staff breakout and café facilities, Boardroom and high-end meeting and training rooms and reception facilities.

The project was completed with excellent attention to detail and finishes under some fairly significant time and financial pressures. Under Graham's direction, the site team provided a very professional, cooperative and responsive approach to the project that made it an enjoyable experience in which to be involved. Above all, the client was very happy and able to move in on time.
